CAREER OBJECTIVE

Graduate student with problem-solving skills and ability to work in small teams, seeking a position in the field of Web Development where I can utilize my skills to further work towards personal and professional development and contribute towards the prosperity of the organization.

WORK EXPERIENCE

Front- End Developer Intern

PSYCH PRESS   Melbourne   03/2029 - 07/2020

Key Responsibilities & Achievements

- Implemented reusable components which helped save development time and budget for our team.
- Collaborated with product team members to implement new feature development.
- Working in the agile/scrum development environment with frequently changing requirements and actively participating in scrum meetings and reviews.
- Developed a responsive single page app for our new project with React and Material UI.

Freelance Web developer

Personal Projects   Melbourne   08/2020 - 12/2020

- Refined and extend my web development skills by doing projects-based practices.
- Built a responsive e-commerce web app with React and React Hooks to sell furniture.
- Developed app integration with REST / SOAP and other APIs, social media logins, payment processors (use Strap), and other services.
- Built a blog system with authentication capabilities with Python and Django, as well as PostgreSQL.
- Designing and styling websites with Styled components to improve customer experience.
- Improved accessibility to make websites more friendly to people with disabilities.
- Made websites easier to manage, maintain and debug by using state management tool like Redux.
